MARTA RANDAZZO

@ randazzomarta@icloud.com   📞 +39 351 207 7159   ✉ 04011 Aprilia   📍 Latium, Italy

Hi! I'm Marta, 24 years old front end developer from Rome, Italy. I can easily balance my time with a job and university and I love having multiple sources of stimuli, since I'm very curious about anything regarding the tech field. I'm a videogamer and a perfectionist, I never start a game if I don't 100/100 complete it, if you know what I mean.

EXPERIENCE

Job Experience

DEAS S.p.A. - Difesa E Analisi Sistemi

📅 October 2023 - Present   📍 Rome / Hybrid

This experience made me improve - a lot - my React competences since I worked on various applications with different teams. I also learned how to manage my time when a lot of priorities occur.

- Started as a Junior Software Developer, mainly regarding the front end development of various products. I was mainly involved in Angular projects.
- Worked following the agile method, with daily scrums and sprint planning and retrospectives. Used softwares like Teams, **DBeaver**, **Docker Desktop** and GitLab to manage my tasks.
- I gained proficiency in working with APIs and verifying all the data I needed through DBeaver or through **Swagger UI**. I was mainly involved in Angular projects.
- I also worked on the maintenance of the Wordpress site of my company and drew up the documentation for a project I was involved in.

Job Experience

Coderblock

📅 July 2022 - October 2023   📍 Palermo / Hybrid

This experience helped me grow a lot since I gained confidence as a developer and grew my love for the tech field.

- Started my journey as a Web Designer (I worked as a graphic designer and as a frontend developer).
- Worked following the agile method. Used softwares like Slack, Trello, Miro and GitHub Projects to optimize my work experience inside the office.
- I mainly used Angular and started learning React with Node.JS, learned about APIs and other CSS frameworks such as Tailwind and Sass as a CSS extension.
- Optimization for HUD designs (I worked with Unity developers for the HUD of our environment), Photoshop settings for professional print (for promotional gadgets and events) and new designs in Illustrator, Photoshop and Sketch for the landings I've been developing in Angular.
- You can find some of my web development projects here, here and here.

STRENGTHS

Eye for detail   Curious Learner   Fast learner   Perfectionist

Clean code   Clear documentation   Efficient task management

Adobe Suite   Figma   Sketch   Miro   Eclipse   Angular 2+   HTML   CSS   TypeScript   Bootstrap   C   Java   MySQL   Versioning (GitHub/GitLab)

LANGUAGES

Italian - C2   English - B2   Spanish - A1
